

TRANS-TIER **Series TT5800**

Economically priced, the Trans-Tier is easily mounted on your tractor for seasonal use. It is an all around utility lift with a capacity of 2000 pound at a 24 inch load center. It is ideal for lifting awkward loads, transporting materials, stacking bins. And loading trucks. Mountings are available for nearly all makes of general purpose tractors. The Trans-Tier is made from high quality materials, Carriages are mounted on sealed bearings. A special rolled channel section of high carbon steel is used for the inner mast. All cylinders are constructed with hard chrome rods. These features assure efficient operation and years of dependable service. Lifting heights available are, 40, 60, 72, 84, 96 and 108 inches.
